PERSONAL PROFILE/CAREER OBJECTIVES

An aspiring Game Developer with a CompTIA IT Fundamentals (ITF+) certification and a solid foundation in game development, system optimization, and AI integration. Dedicated to creating efficient, immersive gaming experiences with technical proficiency in Visual Studio Code and Python 3.11.9.

EDUCATION

- **Molino Elementary School**
(2009-2016)
- **BNHS Villa Maria Annex**
(2016-2020)
- **SHS in San Nicholas III**
(2020-2022)
- **Bachelor of Science in Information Technology**
University of Perpetual Help System Dalta

PROFESSIONAL SKILLS

- **Programming**
- **Game Development**
- **AI Integration**
- **Database Management**
- **Web Development**
- **Character Modeling**
- **Performance Tuning**
- **Networking Concepts**

WORK EXPERIENCE

Family Business - Trucking Services

Role: Billing and Financial Assistant (2020-2022)

- Created and maintained Excel spreadsheets for monthly billing and total income tracking, ensuring accurate financial records and streamlined operations.
- Analyzed monthly financial data to provide insights and recommendations for improving profitability and efficiency.
- Collaborated with family members to implement best practices in financial management.

Professional Development Courses

- **CompTIA IT Fundamentals (ITF+)**
Completed certification demonstrating proficiency in foundational IT skills.
- **Data Privacy and Cyber Awareness Campaign**
Participated in a program focused on promoting data privacy and cybersecurity best practices.
- **Blockchain Technology Course**
Explored the fundamentals of blockchain technology and its applications.

ADDITIONAL EXPERIENCE

Collaborative Game and Software Development Projects

Worked as part of a team on various projects, gaining hands-on experience in game development, database management, and AI system integration.

Key Projects:

- **Game Development:** Collaboratively developed a simple game, focusing on gameplay mechanics, coding logic, and enhancing user experience.
- **Database Creation:** Contributed to building a basic database system, applying knowledge in database management, structuring, and data organization.
- **AI-Based System Development:** Currently part of a team developing an AI system within school premises to detect and address misinformation, utilizing pre-trained models and AI integration skills as part of a capstone project.

AWARDS AND RECOGNITIONS

- **CompTIA IT Fundamentals (ITF+) Certification**
Recognized for completing this certification, demonstrating proficiency in essential IT skills.
- **Conference Participation Certificate**
Awarded for attending iSITE's 1st National Conference on AI tools in education, highlighting engagement with current trends in technology.
- **eGOVPh Super App Orientation**
Attended an orientation on the eGOVPh Super App, exploring its features and benefits for citizens.
- **Data Mining Seminar**
Participated in a seminar that covered the principles and applications of data mining techniques. Participated in a seminar that covered the principles and applications of data mining techniques.
